

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Funded by the Horizon 2020
Framework Programme of the
European Union

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

What is the EuDEco User Expert Group?

“The EuDEco User Expert Group is the project’s primary interface to the outside world alongside the Advisory Board.”

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Composition

- A network of **experts** from innovation and research projects
 - developing pilots for data reuse, or
 - investigating and addressing related requirements and barriers
- **Joining and leaving** the User Expert Group (UEG) is possible at any time but we are particularly interested in long-term relationships
- Projects are asked to sign a **Memorandum of Understanding**

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Objectives

- Bring together **experts** with a broad and varied range of experience
- Allow EuDEco to achieve its objectives based on a solid **foundation**
- Provide **guidance** related to the preparation of convincing exploitation and sustainability plans

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Working methods

- Series of half-day, face-to-face workshops
- All UEG members are encouraged to participate in **five core workshops**
 - Share views and expertise
 - Discuss opportunities and challenges
 - Provide feedback on solutions and recommendations
- Selected UEG members are encouraged to participate in **two in-depth workshops**
- Feedback on preliminary results made available in written form

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Memorandum of Understanding

- Details the **terms of membership** in the UEG
- Particular attention is paid to the UEG's objectives, working methods, possibilities for cooperation and administrative matters
- Agreement to **assign representatives** to serve simultaneously or consecutively as members of the UEG
- Not legally binding

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

What is the
current status?

“As of today, 7 projects have signed the Memorandum of Understanding and 13 have expressed their interest.”

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Current status

- 7 projects have already **signed** the Memorandum of Understanding
- 7 projects have **expressed interest** in joining the User Expert Group
- 6 projects have stated that they consider joining the User Expert Group at a later point in time

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

BIG DATA EUROPE

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

What role will it play during the project?

“Members are invited to participate in five core and two in-depth workshops within the next two and a half years”

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Workshops

- Now – **Clustering Workshop**: Discussion of challenges and opportunities
- 19 October 2015 – **First Forum for Data Reuse**: Validation of the heuristic model
- Spring 2016 – **Second Forum for Data Reuse**: Validation of the refined model
- Summer 2016 – **First Technical Workshop**
- Winter 2016/2017 – **Second Technical Workshop**
- Spring 2017 – **Third Forum for Data Reuse**: Validation of the final model
- Fall 2017 – **Fourth Forum for Data Reuse**: Validation of the requirements and barriers for data reuse and the observatory

Towards self-sustaining data reuse in Europe

Welcome to the EuDEco clustering workshop

Objectives of the clustering workshop

“Kick-start the EuDEco User Expert Group and discuss challenges on the way towards self-sustaining data reuse in Europe”
